“ When I first came to Plant City Eugene was one of the first people I met. He and a couple of other folks would spend lots of time together. We mostly would go to Crystal springs or lithia springs because it was cheap and we never had much money. What I remember about Eugene in those times is that he could spend enormous amounts of time underwater without any air support. As a result we nicknamed him snork,,[short for snorkel] a tool to assist under water swimming. The name stuck with him and the four or five of us called him that for years to come. I loss touch with Eugene after we all became adults but I would always remember Eugene as a dear friend. Wall have a void in our lives with the passing of Eugene.
