I just learned of Ricks passing and am heartbroken. I have known Rick since the early 80's when I worked with him at Advance Security and have remained in contact with him over the years as we met at security association meetings across the country. Rick established the Florida Association of Security Companies in 1997 to improve the security industry and enact legislation that assisted our advancement. His countless volunteer hours, tenacity and leadership definitely made a mark on the security industry across the nation and he will definitely be missed. RIP my friend. Our hearts and prayers go out to the family. Rick will be forever in our hearts.
