“ I remember my dear Aunt Betty's contagious laughter and her sense of humor from my very young age. I knew that she enjoyed life to the fullest. She and my Uncle Donn would attend Linett family get-togethers in Albany, New York. The family would all head off to the races at Saratoga Springs for a day of fun. I reminded her about these fun times a few months ago on a phone call and she remembered it all.

After my husband and I moved away from Florida, we would visit Aunt Betty regularly. We enjoyed taking her to dinner at her favorite Mexican restaurant in Plant City. She was very kind and would not let us leave until she loaded us down with fruit and snacks for our return trip to North Carolina.

Aunt Betty and my Mom shared their passion for strong family ties. She and my Dad shared their passion for playing golf. I know that she is now receiving the love of her family in heaven.

“ I have known Betty for about 13 years. We met at Lakeland Duplicate Bridge Club. She was one of my bridge partners for years. We developed a strong friendship over the years and I always visited her when I went to Plant City. We would go to lunch and then spend time talking about her family and mutual friends. She was a wonderful lady and even though she was up in years, she never lost her feistiness. After her fall and the months that followed until her death, I would visit her often. I even had the pleasure of leading her to Jesus last May and when I saw her the last time she said that she thought the Lord was coming for her but He didn't come. Then she told me she was seeing angels and I assured her that it wouldn't be long. I promised her that I would see her again on the other side and she gave me a smile. I said a prayer with her for the last time and gave her a big hug good-bye. I look forward to the day we meet again in Heaven. I pray her family will find peace and comfort in knowing she is not suffering anymore and also how very much she loved them all.
