“ *My husband went to school with him since elementary and always talked about how extremely intelligent he was. We were just talking about him and then I was trying to look him up because my husband was wondering whatever happened to him. Sadly I came across this and we give you all our condolences on your son's passing, but just know he was and is thought of in very fond ways. May God continue to be with you and your family.*

“ Keith I already miss you so much! Like always, transportation issues, I'm sitting here and not in Plant City. Strangely enough, you're sitting with me now.

Keith had a million talents most didn't understand, so few were able appreciate.

We've been talking on the phone almost weekly this year but I didn't realize I just said goodbye for the last time.

You are the last of the originals and truly understood what it was to be a real friend. The few of us that got to really know you will always KNOW.

I love you.

“*Keith, my tears won't stop. I had lots of plans for us. Trips, vacations, and other things. But now I'll never see you come up on my caller id anymore. We've been through a lot these 36 years. I know what you'd tell me about crying over you leaving, but I'm doing it anyway. You always told me I was the only person that understood you and I kinda I laughed it off. But now I'll never get the chance to tell you how much that meant to me. I'm full of should've, could've and would've. I love so much Keith. I'm going to miss you until the day I die. I know your still with me because we talked about that. Until we meet again, my friend.*
