“ Thank you to all who've had kind words to say about my Father. He meant so much to so many and I know we will all feel his loss for many years to come. Whether you met him in a continuing education setting or on the drill site his knowledge and expertise benefited so many. His work was so very important to him, he carried such pride in what he did & he cared very much about doing what he could to help.

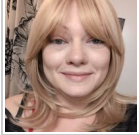

I will miss him for the rest of my time on this earth, as will we all. Again, thank you.

“ So very sorry to read of Mikes passing. Mike was a giant of man in more ways than one. I called on Mike many times when I had Pump problems or we needed a continuing ed. course for our Association. Mike was always there for us. The water well industry has lost so much knowledge and expertise that will never be replaced. I will always remember that no matter how busy he was he would take the time to help us thru pump issues and if needed would come go in the field with us. I will miss you my friend as will the entire water well industry. REST IN PEACE my friend for a life of service. Pete Peterson , Breland Well Drilling Guyton Ga.

“ *Mike was a friend in water well industry that could always be counted on to be available when needed with a good common sense answer. We were in competition but always showed total respect for each other. He will be missed greatly by the industry but also by all of us that called Mike our friend. May God give the strength needed for the family through this great loss.*

“ We are extremely shocked and saddened to hear of Mike's passing. We will always remember Mike's "booming" voice, firm hand shake and welcoming smile. Mike was always willing to go the extra mile to help everyone.

Mike was an extremely smart man and was very good at what he did and he will be extremely missed by all in the Groundwater Industry, but more importantly as the man and friend he was. Prayers to his Family for comfort and healing. May He Rest in Peace.

“ The Ground Water Industry lost a wonderful person in the recent passing of Mike. He was well respected in the industry and always tried to help anyone with a pump issue whether it was a FELE product or some other brand. Not only was Mike an outstanding technical mind in the industry but he was also a great friend to so many.
Mike, may you Rest in Peace knowing how you meant so much to so many. You will always be remembered. My sincerest condolences to your family.
