“ I met Sharon at our job. We were both in the bathroom at work. She was talking about her then fiancée Jim. I told her you do know he has a girlfriend don't you? She said yes and I am her :)

We hit it off and were best friends from then on. I am going to miss Sharon so much. We shared a love of animals. gardening, crafts and our kids. I remember how proud she was of her new truck. She was an amazing woman and friend.

“ Sorry for your loss, may her memory be a blessing. I met Sharon through FSDA and she was one of the first members to greet me and include me in the group. I loved our time painting together and getting to each other. Sharon will be missed.
